

Let us be your Virtual Lab Manager

YJT will replicate the experience of a live trading desk by bringing to the classroom the level of support traders demand, a unique understanding of the software and systems that are specific to a trading environment, and the specialized skill set to monitor and optimize the investment that the school makes in its trading lab environment.

The challenge of keeping your lab running smoothly is daunting. It takes:

- ▶ An unwavering focus, with 24x7 support and communication
- ▶ Custom solutions combined with a carefully integrated suite of the best tools on the market today for monitoring systems and applications
- ▶ Accessible reporting to track overall health of the learning environment
- ▶ A staff encompassing a range of specializations to resolve issues on the spot

Optimization of Assets.

We understand lab equipment and software is no small investment. With our frugal attitude and appreciation for higher education, we aim to optimize university investment in trade labs with cost efficient guidance and assistance. We guarantee:

- ▶ To keep your department on budget for refresh cycles
- ▶ Quick and efficient implementation
- ▶ No lag time with installments or communication to ensure that students are not losing valuable class time
- ▶ Affordable \$3,000/month rate with **around-the-clock service**

Improve your system's performance.

We have a suite of top analytical tools that allow us to see end-to-end performance, as well as how individual components are contributing to your system's throughput. Our support provides new visibility into your environment and identifies problem areas. We also investigate the root cause of chronic problems and create both long-term and short-term fixes to improve your system's overall performance.

Take advantage of our top maintenance practices.

With a steadfast commitment to supporting trading networks better than anyone in the industry, YJT provides comprehensive monitoring solutions that combine best-of-breed solutions along with customized tools. YJT supports:

- ▶ One on-site visit to check and optimize your trading infrastructure
- ▶ Overall health, functionality and performance of networks, servers and workstations
- ▶ We provide live service and training for faculty and students through phone, email, and IM to answer all technical questions
- ▶ Optional Key Card Facilitation to monitor lab attendance and secure the location even outside classtime

Enjoy the peace of mind with 24x7 support.

YJT's certified and trained engineers, knowledgeable in the trading industry and familiar with your environment, continually support your operations.

Need to reset passwords before a 7am class? No problem. With our support staff, we can not only identify problems at any hour but also can begin to solve them immediately.

Build a relationship with your own virtual lab manager

There are many sources for technology, but YJT goes far beyond delivering the hardware, software and networks you need. We work side by side with you and your faculty, day in and day out, to optimize your investment by taking care of your lab environment.

Put our experience to work for you.

We understand the complexities of the finance and trading industry. We know the environments, the systems and the applications. We know the players, and we have relationships with them. This enables us to get things done quickly and efficiently. Such experience, knowledge, and aptitude is critical for lab programs to ensure students acquire the best education possible.

One step ahead.

We are continually researching and investing in the newest processes and the most innovative systems. We are building standard practices focused on providing solid, reliable environments. And we are advancing our skills, upgrading our resources and bringing our clients the best of the industry.

With these tools, we hit the ground ready to develop and deploy the strategies you need to advance your educational opportunities.

The benefits are yours.

Choose YJT and you save time on hiring, training and retaining a dedicated lab manager. You gain the confidence of knowing that your network is in capable hands 24 hours a day, and uptime is improved. And perhaps most importantly, your internal technical and development staff is available to focus on your educational goals and to pursue innovation.

YJT understands you make significant investments to finance great learning environments for students. Let us help you manage your assets wisely to give students unbeatable education that will equip them for the professional world.
